## RELEVANT EXPERIENCE

Felixify - Digital Marketing and Web solutions      November 2024 - Present

**Founder and Developer**

- Lead a team, managing client relationships and ensuring high-quality service delivery
- Strategize and execute growth plans to scale the agency in the digital marketing and web solutions space.
- Conduct market research and collaborate with clients to identify new service opportunities for increased revenue.
- Analyze market trends and competition to identify growth opportunities
- Develop and maintain modern, high-performance websites tailored to client needs

CodeFerno      January 2024 - November 2024

**FullStack Software Developer**

- Developed and deployed high-performance SaaS products tailored to business needs.
- Collaborated with cross-functional teams to deliver scalable and efficient web solutions.
- Gained hands-on experience in lead generation, optimizing strategies for business growth
- Implemented best practices in coding, security, and performance optimization
- Contributed to system architecture and backend development for improved scalability

## PROJECTS

**Solana Chess | Link**

- Developed a decentralized multiplayer chess game using Solana Blockchain and Phantom Wallet authentication
- Implemented real-time matchmaking and multiplayer features using Firebase and Firestore instead of traditional WebSockets
- Integrated chess.js for accurate game mechanics and move validation.
- Designed a responsive React.js frontend for an intuitive user experience.

**GyatScript | Link**

- Created a custom programming language with a syntax inspired by TikTok trends
- Implemented a lexer, parser, and interpreter, deepening my understanding of advanced compiler concepts
- Gained hands-on experience in language design, tokenization, and AST (Abstract Syntax Tree) parsing
- Designed a simple yet functional execution model for handling custom scripts

## EDUCATION

**Jagiroad College - High School**      2027

- Studying 11th Grade
